Dear Friends from Kamsack,

Thank you for your invitation to the Kamsack Homecoming in 2010. It looks like a wonderful event, and I am sure I would enjoy it. However I am now 93 years old and my health is not too good and no telling what it might be like in two years time, so I feel I must decline the invitation, but I wish you the very best.

Our family lived in Kamsack for twenty years. Our children got their High School there and went on to get their degrees. Brian got his M.A. but on a trip to India he contracted a disease that has made him unable to work since, but he has adapted and enjoys life. Evangeline enjoyed her 20 years of teaching the retarded class of children. She died last September after nine years of Alzheimers disease and is greatly missed. She would have loved to attend this reunion.

Thanks again for letting me know of your plans. My best wishes for a wonderful reunion,

Sincerely,
